- Ohio
- Oregon
- Pennsylvania
- Tennessee
- Texas
- Washington, DC

International

- Brazil
- Canada
- India
- Japan
- Philippines
- Spain
- Venezuela
- Czech Republic

Hello from Victims of DEW,

Victims of Directed Energy Weapons is a division of the non profit organization, Direct Energy Weapons Agency that serves as a support group for the countless people whose lives have been turned upside down by the criminal use of directed energy weapons for harassment and torture.

These victims come from all walks of life, but share the common experience of being stalked by criminals that use invisible electromagnetic waves to cause excruciating pain, debilitating neurological symptoms, and unrelenting psychological distress to their Victims. Many report being attacked in their own homes, feeling unsafe and violated in their most private spaces.

These advanced weapons technologies are often used in conjunction with organized stalking, gaslighting, and intimidation campaigns apparently designed to isolate the victims and make them seem mentally ill when they speak out.

While directed energy weapons have legitimate applications in national security, Victims firmly believe they are being used in an unethical, illegal manner against innocent citizens.

Our goal is simply to raise awareness, find relief for Victims from their suffering, and ultimately put an end to this horrific abuse of technology and human rights.

By Victims banding together and supporting each other, we hope to find the strength to persevere until the truth comes to light and directed energy harassment is universally recognized as the crime against humanity that it is. We will continue to reach out to lawmakers and the Department of Defense urging them to take action & stop these inhumane attacks and bring the perpetrators to justice. ,
